FM-2030

HEAVY DUTY SOLDERING IRON

The FM-2030 Heavy Duty Soldering Iron provides a higher mass tip with double the power of conventional Hakko T15 tips, making this iron the ideal solution for difficult-to-solder applications, such as heavy ground planes and high heat sink applications. Uses T22 tips (not included)

Part Number: FM2030-01

Note:
FM-203 stations with serial numbers before 0220311002129 will require the purchase of an upgrade.
Contact American Hakko for more information.

P/N: FM2030-02

FM-203

DUAL PORT SOLDERING STATION

USE WITH

FM-206

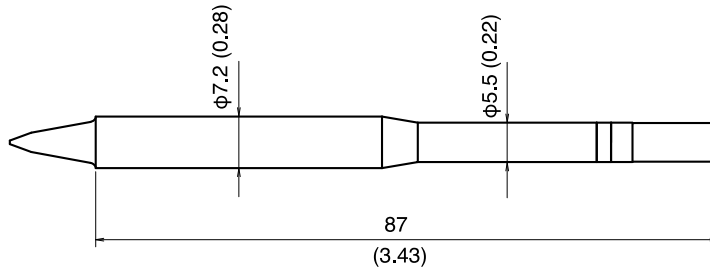

3-PORT REWORK STATION
